LEARN HOW To Feed Yourself Skillfully.

It is easy to use good food and get well and keep that way, but a person must go about it.

"A lady says: 'I had a dreadful time of it before I learned how to feed myself properly. I suffered with stomach trouble for about ten years and finally got so bad that terrible pains would set in, followed by nauseating sickness in the stomach and bowels.'

"Sometimes I would blow up and would have to lie flat on my back. My stomach finally got so bad that it would throw up everything I ate and of course, I lost weight and strength very rapidly. I became pale, blood was out of order and I looked like a skeleton finally."

"One day neuralgia set in in the stomach and liver and I went right down to death's door. I got so bad that even warm water was thrown off the stomach, which would hold absolutely nothing until I began taking 'Grape-Nuts' in small quantities."

"My father had been accustomed to 'Grape-Nuts' and knew of the value of the food and began giving it to me. I immediately began to improve, and the stomach retained the food and digested it. I gradually grew well again, and now I can eat a hearty dinner of almost anything. I have gained thirty pounds in weight. My brain is clear, skin beautifully white, and my eyes as bright as crystal, where I used to be 'sallow and with lack luster eyes. I owe everything to Grape-Nuts. Please do not publish my name.' Name given by Postum Co., Battle Creek, Mich."

There is one piece left of one lot, a hundred yards of another, a half dozen suits, every one different, four handkerchiefs of one kind and forty of another, and so on all over the store.
